PROJECTS

Amazon-Clone — July,2023 - Sep,2023

Created Amazon clone using React, Tailwind CSS, Redux, Firebase, and React Router for user-friendly Ecommerce site with authentication, real-time data, and responsiveness.

<https://amazon-clone-eta-mocha.vercel.app>

Netflix-Clone — Sep,2023 - Sep,2023

Developed responsive Netflix clone with video streaming, watchlist, and movie details using HTML, CSS, JavaScript, and REST APIs.

<https://netflix-clone-drab-one.vercel.app>

Weather-App — June,2023 - June,2023

Developed a real-time weather app, utilizing an API for current weather data by city input, demonstrating API integration and user-friendly design.

<https://weather-app-mu-mocha.vercel.app>

Calculator — June,2023 - June,2023

Crafted a responsive online calculator with diverse operations, error handling, and user-friendly design, emphasizing web development and mathematical proficiency.

<https://calculator-six-taupe.vercel.app>

Tic-Tac-Toe — June,2023 - June,2023

Created responsive multiplayer Tic-Tac-Toe game with strong winning logic, emphasizing interactive web development skills for a fun, cross-device gaming experience.

<https://tic-toc-toe-one.vercel.app>

Analog and Digital Clock — June,2023 - June,2023

Crafted a stylish analog and digital clock using HTML, CSS, and JavaScript, showcasing real-time accuracy and seamless design integration.
